Pronaca

We are a family owned multinational company that operates with respect to provide good nutrition to millions of families around the world.

At Pronaca, we believe that feeding well means offering quality products, but it also means respecting people, animal welfare and nature. Caring for today means nourishing tomorrow.

 **We are human.**

 **We are visionaries.**

 **We are vibrant.**

Our Values

Our family has nourished millions of households for over 68 years through our expertise in high-quality proteins. We always act with respect, because every action we take is designed to create a positive impact, building a more sustainable future and enabling us to serve more families in new territories.

We provide more than **10,500** jobs in Ecuador, Panama, and the United States. We work with more than **4,290** suppliers and supply more than **101,780** customers in the markets where we operate. We have **149** chicken, pork, egg, turkey, and hearts of palm farms in Ecuador and Panama, as well as 7 processing plants and 9 distribution centers, ensuring efficient value chains. With 36 market-leading brands, we have positioned ourselves as a benchmark in food production and marketing. Our quality transcends borders, consolidating our position as the largest exporter of hearts of palm worldwide.

Our dream is clear:

To continue providing healthy nutrition.

Sustainability

Respect for our communities

Our purpose guides us to make a meaningful contribution to the education and food security of our societies.

Respect for the planet

At Pronaca, we apply sustainable practices in all our operations, from reducing emissions, to properly managing resources such as water, conserving local biodiversity and minimising waste through circular economy practices.

Respect for animals

We uphold high standards of animal welfare, ensuring proper conditions across all our facilities. We implement ethical practices in the treatment of the species involved, aiming to maintain their health and well-being at all times.

We have more than

832 environmental management systems,

including water treatment plants, biodigesters, grease traps, composting systems, and more.

More than 75% of our packaging is recyclable.

We produce

15.100 tons of organic fertilizer each year,

promoting the circular economy and agricultural sector development.

We have planted more than

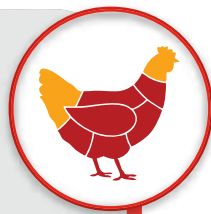

1 million trees in **3,450 hectares**,

promoting reforestation and environmental regeneration.

We work under the highest quality and environmental standards, backed by **international certifications**, ensuring that every step we take is aligned with our vision of respect and sustainability.
